## LIFE COVER

### Are you taking the lead in your life?

We may like to think 'it will never happen to me' but we do die, sometimes prematurely, leaving family and loved ones behind. What plans have you made to ensure your family can survive without you?

### TotalCareMax Life Cover has built-in features...

Feature	How it works	Why it's important
Terminal Illness	Up to 100% of the Life Cover benefit is available if you are diagnosed as being terminally ill and likely to die within 12 months of the diagnosis. The Life Cover benefit is reduced by the amount of any terminal illness benefit paid.	The insured person is unlikely to be working and this means that there will be less household income.
Bereavement Support	This pays an immediate lump sum of \$10,000 upon Sovereign receiving notification of death. The Life Cover benefit payable is reduced by \$10,000 on payment of the Bereavement Support benefit.	This gives speedy access to a lump sum at a stressful time. The payment is often used to cover funeral costs, travel, accommodation and counselling.
Special Events Increase Facility	In certain situations, you can apply to increase your sum assured without having to provide further medical information.	Life-changing events often result in greater financial responsibilities. We make it easy for you to increase your cover when you: <ul style="list-style-type: none"> <li>• Move home and take out or increase a home loan</li> <li>• Have a child (by birth or legal adoption)</li> <li>• Get married or enter into a civil union</li> <li>• Become divorced/have a civil union dissolved</li> <li>• Become responsible for the full-time care of a close relative.</li> </ul>
Financial Advice	If Sovereign pays a claim under this Life Cover benefit, then we could reimburse the policy owner for fees up to \$1,500 including GST paid for financial advice received by the policy owner from a Sovereign-approved financial adviser. This is a one-off payment.	Where expert advice is needed, this benefit can provide a small sum to help fund the costs of obtaining professional advice.
Children's Funeral Benefit	If the insured's child dies as a result of an accidental injury within 90 days of the injury, we could pay a children's funeral benefit of \$2,000. The child must be between the ages of three and 10 years at the time of first suffering the injury. The adult's Life Cover benefit is reduced by the amount paid.	On the death of a child, this money is immediately available to assist with the cost of a funeral – one less expense to have to worry about at a stressful time.
Premium Rates Guaranteed	The underlying premium rates for Life Cover are guaranteed for one year or 10 years, to age 65, or to age 80, depending on the premium type selected.	If your cover doesn't change, your premiums will remain the same for the period you have selected. Even if there is a change in the underlying rate table, your premium will remain the same. Where you have chosen to increase the sum assured by CPI, the underlying premium rate will remain the same and any premium increase will relate to the increase in the sum assured.

### TotalCareMax Life Cover also has an add-on benefit...

Future Insurability	You are able to increase your Life Cover up to \$1 million, or twice the original life cover insured (whichever is less), during the term of your policy, without providing further evidence of your health. *Every increase in cover will require an increase in premium.	This can allow you to increase your cover as your personal circumstances change. The choice is yours.
